Statement > Portfolio{souravkaushik-dev.github.io/Portfolio/}

Certified Ethical Hacker (CEH) with expertise in cybersecurity, reverse engineering, and mobile app development using Flutter. I have developed multiple apps and lead security-focused projects like EDOT and OneZero Bit. Passionate about creating secure, user-friendly solutions while exploring new technologies and innovations. Skilled in vulnerability analysis, UI design, and optimizing system security. Committed to delivering high-quality,

Experience

2023 - Present | Cybersecurity and App Development Specialist

Dotstudios, India

- > Developed and launched multiple secure mobile applications using Flutter
- > Led reverse engineering and vulnerability assessment projects for enhanced security
- > Designed and implemented minimal, user-friendly UI for improved app experiences

2021 - 2023 | Flutter App Developer

- > Created 6-7 feature-rich apps focused on performance and UI optimization
- > Collaborated with clients to design customized app solutions
- > Integrated APIs and enhanced app functionality through Firebase

2019 - 2021 | Junior Developer and Ethical Hacker

Various Projects

- > Performed ethical hacking tasks, focusing on vulnerability discovery and reporting
- > Reverse-engineered software to analyze security loopholes and improve systems

Skills

>**Programming Languages:** C, Flutter

>**Development Tools:** Visual Studio Code, Android Studio

>**Cybersecurity:** Ethical Hacking, Vulnerability Assessment, Reverse Engineering, Concado (Ciphred Text Protocol)

>**Technical Expertise:** Mobile App Development (Flutter), UI/UX Design, API Integration

>**Professional Skills:** Strong analytical skills, attention to detail, problem-solving, project management
Special Projects: EDOT (Exploration and Dissection of Technology), OneZero Bit (Malware Architecture Research)

Education

2023 - Present | BCA (Bachelor of Computer Applications)
Amity University Online, India

2022 - Certified Ethical Hacker (CEH)
EC-Council
