EDUCATION

Amity University   Noida, India
Bachelor in Computer Application (**B.C.A**)   **2023-2026**
EC-COUNCIL   Delhi, India
CERTIFIED ETHICAL HACKER (**C.E.H**)   **2021 - 2022**

SKILLS SUMMARY

- **Languages**: C, FLUTTER, JAVA SCRIPT
- **Platforms** :   Visual Studio Code, Android Studio
- **Soft Skills**:   Analytical, Leader, Collaborator

PROJECTS

Flutter App Developer | Envor Studios
January 2022 - February 2024
- Developed and published a high-performing Flutter application on the Play Store, receiving positive user feedback and high ratings.
- Ensured data integrity and optimized app performance, significantly enhancing user experience.
- Conducted thorough testing and debugging to ensure the application's reliability and efficiency.
- Identified and implemented key features to meet user needs through comprehensive market analysis.

Wallpaper App Development | Envor Studios
January 2022 - Present
- Developed and maintained a dynamic wallpaper app using Flutter, continuously updating it with new features and content.
- Successfully published and managed the app on the Google Play Store, achieving high user satisfaction.
- Implemented efficient performance optimization techniques through rigorous feature engineering and testing processes.
- Introduced innovative solutions to enhance app functionality and user engagement, including category filters, favorite lists, and daily wallpaper updates.
- Continuously improved app performance and user satisfaction through iterative development and incorporation of user feedback.

Music Player App | Envor Studios July23 - October 2023
- Developed a feature-rich music player app using Flutter, with a focus on smooth user experience and robust performance.
- Minimized app crashes and improved stability through rigorous testing and optimization processes.
- Implemented innovative features such as custom playlists, equalizer settings, and offline playback.
- Discontinued the app following a report through Google, ensuring compliance with platform guidelines.

Additional Experience:
- Successfully developed and published over five Flutter applications on the Play Store under the Envor Studios developer account.
- Gained extensive experience in app lifecycle management, from development and testing to deployment and maintenance.
- Leveraged market analysis and user feedback to continually improve app offerings and meet evolving user needs.

CERTIFICATES

Certified Ethical Hacker | EC-Council
- Attained proficiency in ethical hacking methodologies, tools, and techniques, ensuring cybersecurity readiness and compliance.
- Acquired hands-on experience in identifying vulnerabilities, conducting penetration testing, and implementing security measures to safeguard digital assets.
- Demonstrated expertise in ethical hacking practices, contributing to the enhancement of organizational security posture and resilience.
